

PRESS RELEASE

Aspropyrgos, April 8, 2010
03.2010πλ

March 23 – Halyps Cement supports the Local Community

In the context of the Corporate Social Responsibility Policy, Halyps Cement donated to the Municipality of Aspropyrgos a Sweeper for cleaning the streets.

Through the Corporate Social Responsibility policy, we established and reinforced a co-existence relationship between our activities and the local community, creating an atmosphere of confidence and understanding with all of our associates.

It is not simply a Heavy Industry manufacturing Building Materials; on the contrary, it is an Industry fully respecting human beings and the environment, able to feel the needs and discuss solutions with all stakeholders offering the best it can offer.

The event of handing over the sweeper, organized by the Municipality of Aspropyrgos, took place on March 23 in the Town Hall surrounding area, in the presence of the Mayor of Aspropyrgos and deputy-Mayors, employees and Halyps Cement representatives.
