Halyps Cement participates in the rehabilitation effort for fire-ravaged areas

Aspropyrgos, September, 11th 2007 – Halyps Cement actively participates in the effort which began throughout the country to reconstruct the fire hit areas. **Halyps Cement** shall contribute to this effort by offering 3,500 tons of cement for infrastructure projects or/and residences in the afflicted areas, joining in along with the country's business community via the information and coordination office set up by SEV (Hellenic Federation of Enterprises) in cooperation with the Emergency Aid Fund established for this purpose.

As an enterprise of global reach operating in 19 countries, **Italcementi** Group is aware of its social role significance and is committed to ensuring responsible social behaviour covering all companies under its control and the employees thereof.

We, as **Italcementi Group** members, have a common vision reminding us that we belong to a wider social community extending far beyond our activities boundaries. This vision also reminds us that we are part of a society which calls for greater sensitivity and cooperation. And this is precisely what we respond to.

Italcementi Group is the fifth largest cement producer in the world and the biggest in the Mediterranean area. With a staff of over 22,850, Italcementi Group's companies combine the expertise, know how and cultures of 19 countries. With 2006 annual sales amounting to over 5.8 billion Euro, the Group boasts an industrial network of 62 cement plants (cement + clinker sales 64.0 Mt), 15 grinding centres, 3 terminals, 152 aggregates quarries (sales 59.3 Mt) and 588 concrete batching units (sales 21.6 Mm³).
